

## USE AS YOU JUDGE BEST

Both Form-A-Gasket Number 1 and Form-A-Gasket Number 2 make assemblies that are absolutely leak-proof to gasoline, gasoline vapor, kerosene, grease, hot or cold oil and water.

Used alone or on top of old or new gaskets, flange surfaces, ground joints or screw thread connections.

Form-A-Gasket Number 1 . . . is hard-setting and fast-drying . . . resists constant vibration and withstands terrific pressure.

Form-A-Gasket Number 2 . . . non-hardening and pliable . . . preserves solid gaskets . . . acts as a seal but not as a cement . . . opens up at slightest touch.

All assemblies being different . . . use Form-A-Gasket Number 1 or 2 . . . as you judge best.

PERMATEX COMPANY, INC.  
Sheepshead Bay, N. Y., U. S. A.

Wax Polish . . . easy to apply . . . produces a dry, brilliant lustre that lasts for months.

Auto Body Cleaner . . . removes film and stains . . . without injury to lacquer or striping.

Liquid Wax . . . the fastest of all polishes to apply, the lustre lasts for many months.

A trio of perfect products that meet all cleaner and polish problems.
